

ERNEST T. ARMSTRONG - BIO

Mr. Ernest T. Armstrong is CEO and managing member of Exposure Scientific, LLC. Exposure Scientific is dedicated to researching, developing, marketing and licensing consumer healthcare products that are natural, patented, backed by science and disruptive to traditional pharmaceutical and drug approaches.

Ernest is an inventor and developer of AllergX[®], an all-natural, non-drowsy, quick-dissolve lozenge that regulates the root cause of seasonal and year-round allergy symptoms.

Additionally, Ernest is the inventor and developer of Solar D[®] sunscreen, an internationally patented line of vitamin D promoting sun care products. He is also the inventor and developer of HeadX[®], a natural alternative to OTC painkillers.

Ernest has been a founding member of three pharmaceutical companies and has been involved in planning and implementing international clinical research since the early 1990s. He has overseen the operations of large, late-stage drug development programs on thousands of subjects and budgets of more than \$15,000,000. He has worked with the FDA and written documents on approval and regulatory matters, and has invented and authored several medical patents.

Ernest has also been involved for many years in pharmaceutical business development, an experience that included his interfacing with some 200 pharmaceutical and biotech companies.

He was an Associate Professor of International Business at Dai-Ichi Economics College, Japan, speaks several languages and has lived in Canada, France, Guatemala, Italy, Japan and Switzerland.

Ernest's undergraduate education was at Humboldt State University, BA, in Business and French and Biology studies, and graduate school at University of California at Santa Barbara (Statistics) and San Francisco State University (MBA).
